

# How to connect your Android device to James Hargest BYOD WiFi:

## Android Devices:

These instructions were tested using a Samsung Galaxy S5, instructions for your device may vary.

	
<p>1. Go into your devices Settings screen</p>	<p>2. On the Settings screen choose Wi-Fi</p>
	
<p>2. On the Wi-Fi screen choose JHC-BYOD.</p>	<p>3. You will be prompted to enter your JHC network login and password. For students this is your JHC student id number. Enter your login name under the <b>Identity</b> field, leave <b>Anonymous Identity</b> blank if this option appears on your device. When you are done click <b>Connect</b>.</p>

4. You will now be connected to the James Hargest BYOD WiFi network. Open a web browser of your choice to access the Internet or an Android app of your choice.
